

OUTSIDE

TUNNEL DOORS

VENTILATE AND INSULATE

Outside tunnel doors are available for systems of any length with any number of vertical doors.

Choose either center or end gearboxes for systems with more than 1 row of doors.

Drive units can control single, double, or triple doors.

A unique overlapping door design minimizes framing.

1.5" panels with R8 insulation rating and built-in UV protection.

Option of white or black door panels.*

*Field assembly required.
