

FEED LINE **HOPPER**

RELIABLE FEED DELIVERY

Cumberland feed line hoppers are made for flexibility utilizing a small footprint and easy retrofit attachment. The 1-piece translucent plastic design ensures simple assembly and allows for feed level visibility. The 150 pound capacity holds an optimal amount of feed to help maintain full feeders and healthy birds.

Wire cable guides make suspending and stabilizing the hopper a simple task.

Quick disconnect pins allow for easy removal at clean-out.

Hopper bottoms are reinforced for added durability and ensure a solid connection.

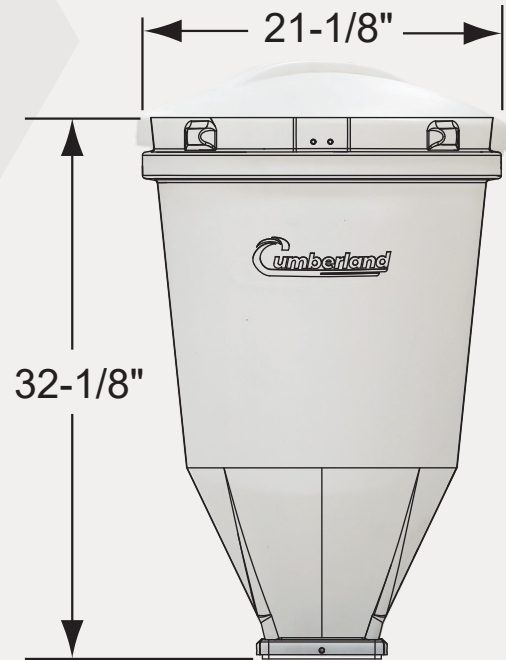

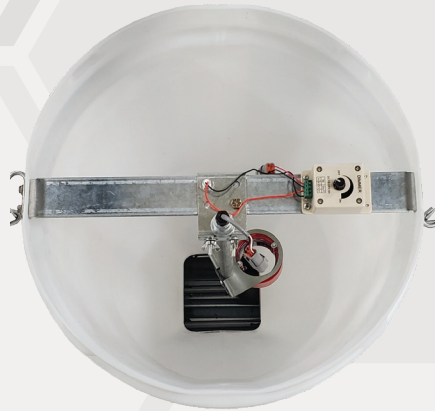

150 POUND CAPACITY

Cumberland

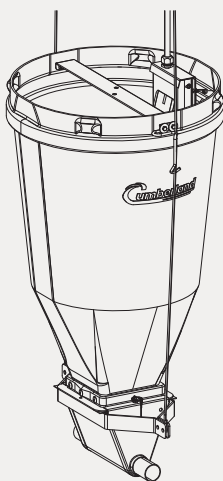

Cumberland's plastic feed line hoppers are designed with thick sidewalls and durable construction to withstand the demanding environment of a poultry house. A smaller footprint, lighter weight, and easier cleaning compared to most metal options allows for installation and maintenance flexibility.
