

A detailed photograph of an automated slide gate mechanism. The gate is a large, rectangular metal plate with a polished finish, mounted on a heavy-duty metal frame. A long, cylindrical actuator arm extends from the center of the gate, ending in a white handle. The gate is secured with heavy-duty metal chains at its corners. The background is a plain, light-colored concrete floor. The text "AUTOMATED" is in white, and "SLIDE GATE" is in large, bold letters, with "SLIDE" in white and "GATE" in red.

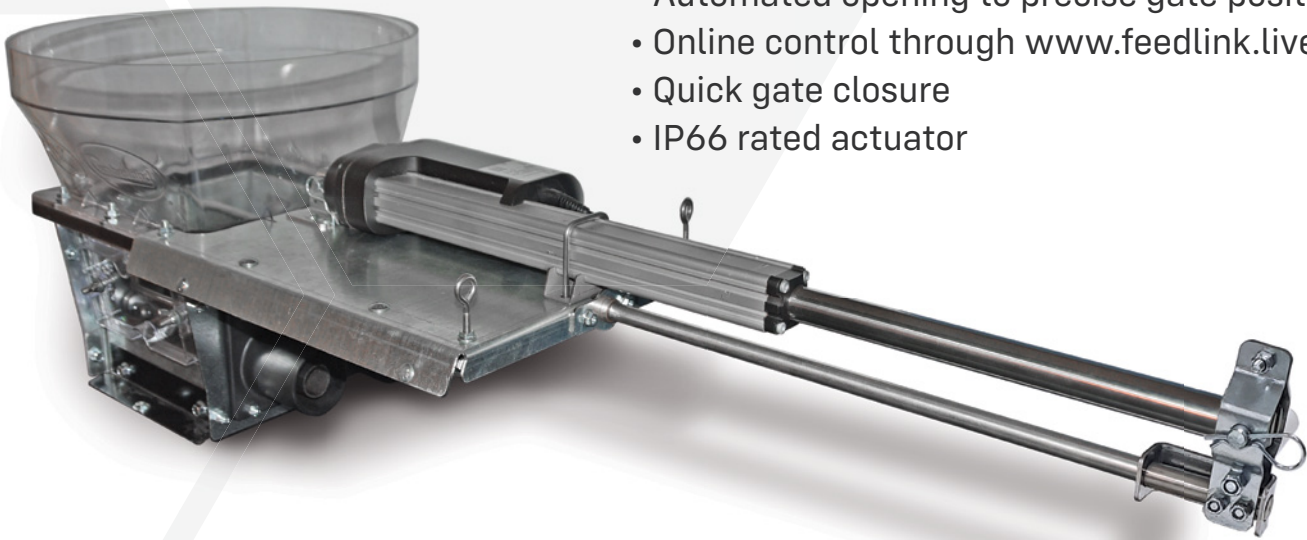

AUTOMATED **SLIDE GATE**

Quick Gate Closure

ACCURATE GATE

POSITIONS

- Automated opening to precise gate positions
- Online control through www.feedlink.live
- Quick gate closure
- IP66 rated actuator

Single or twin options are available. Automatic opening based on proximity switch inputs.

Handles are included for simple manual adjustment of the slide gate.

Operate slide gates at the tank or remotely inside the barn for increased bio-security.
