Front Roll-Out
Haven Hybrid

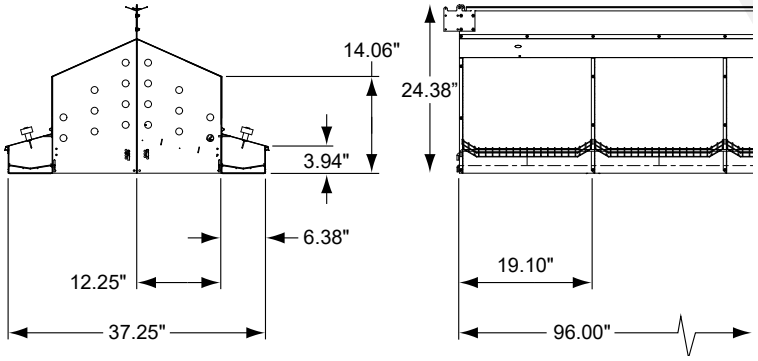

Cumberland's Haven Hybrid breeder nest sets a new standard for comfort and efficiency. Its spacious 19" nest hole gives hens plenty of room to move, promoting comfort and reducing stress.

- 19" Nest Hole Width: Provides birds with ample space, encouraging natural movement and reducing stress.
- Extra Wide 6" Belt/Channel: Offers roomy, smooth, and reliable egg transport for safer handling, fewer breakages and reducing jams
- Wire Nest Bottoms: Promotes better airflow and cleanliness, supporting flock health and easier maintenance.
- Wire Egg Channel: Keeps eggs clean as they move to the collector, further protecting egg quality.
- Hinged Channel Cover: Easy access and visual inspection of egg
- Swing Top Closure: Keep nests cleaner

Wide 19" nest holes allow for more bird movement compared to the standard 9" wide nest hole size.

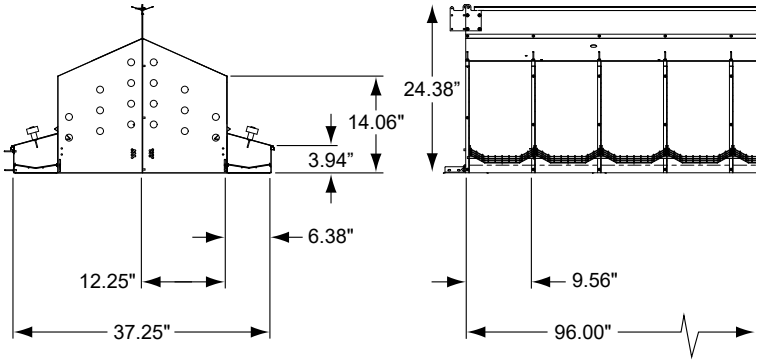

Haven Solo

Cumberland's Haven Solo nest combines a standard, single nest hole with an extra-wide 6" belt and channel, ensuring eggs are transported smoothly and safely. Choose from flexible closure options, either a swing top or rod closure, to suit your operation's needs.

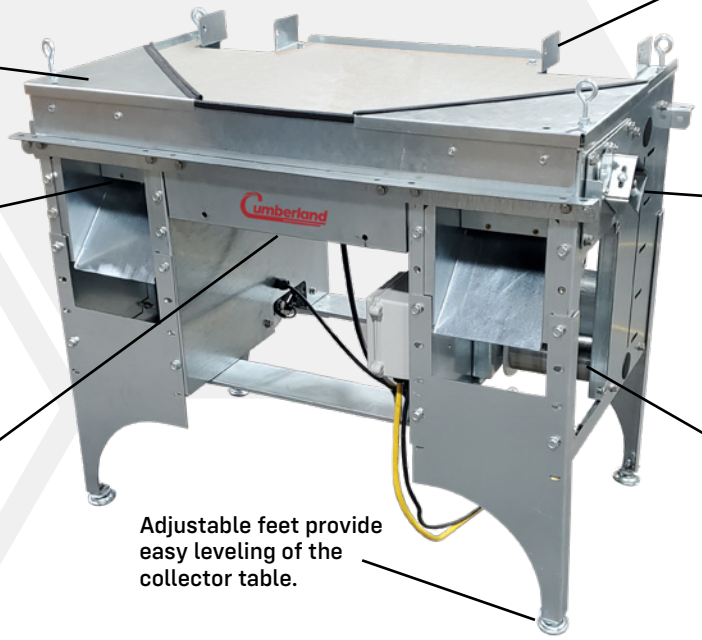

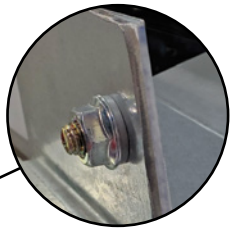

- Extra Wide 6" Belt/Channel: offers roomy, smooth, and reliable egg transport for safer handling, fewer breakages and reducing jams
- Wire Nest Bottoms: Promotes better airflow and cleanliness, supporting flock health and easier maintenance.
- Wire Egg Channel: Keeps eggs clean as they move to the collector, further protecting egg quality.
- Flexible Closure Options: Swing top or rod closures available
- Hinged Channel Cover: Easy access and visual inspection of eggs

Egg Collection Tables

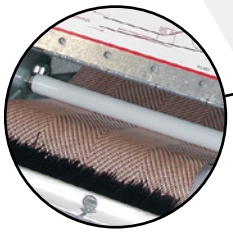

Built for today and ready for tomorrow, Cumberland's collector adapts as your farm grows. Start with an end-of-row collection system and upgrade later by simply purchasing the tabletop to accommodate a cross conveyor, eliminating the need for a complete collector replacement.

Includes stray voltage accessories to protect flock welfare

Removable top provides easy access for hassle-free drive maintenance

Continuous cleaning brushes keep the belt free of debris for consistent egg flow

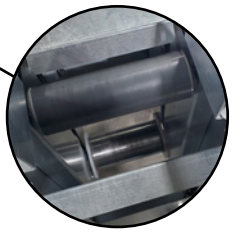

Redesigned belt tracking system minimizes downtime and maintenance effort

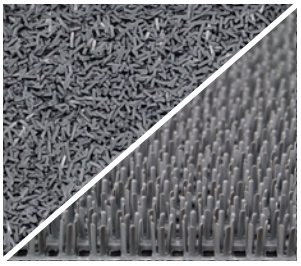

Robust 1 HP Motor

Adjustable feet provide easy leveling of the collector table.

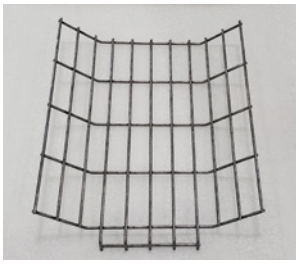

Built-in belt take-up and safety switches ensure smooth, reliable operation

More Features and Options to Improve Performance.

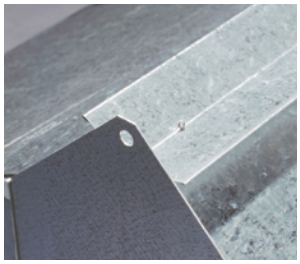

Nest Pad
Designed for comfort, available in easy to clean grey "crushed" or "astro-turf" styles.

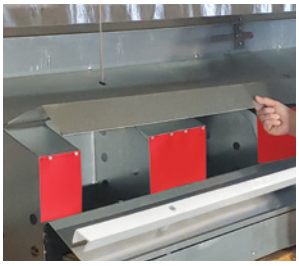

Wire Bottoms
Durable, promote better air flow and cleanliness.

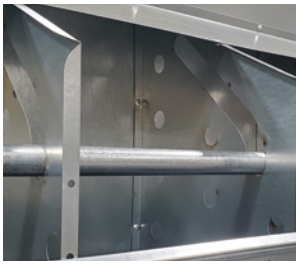

6" Wire Egg Channel
Extra wide to reduce jams and remove manure and debris.

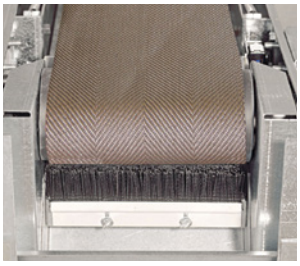

Anti-Roost
A simple but effective anti-roost device and steep pitched roof keep birds from roosting and promote a cleaner environment.

Swing Top Closure
Swing top closures are available for both the Haven Solo and the Haven Hybrid.

Rod Closure
Rod closures available for the Haven Solo.

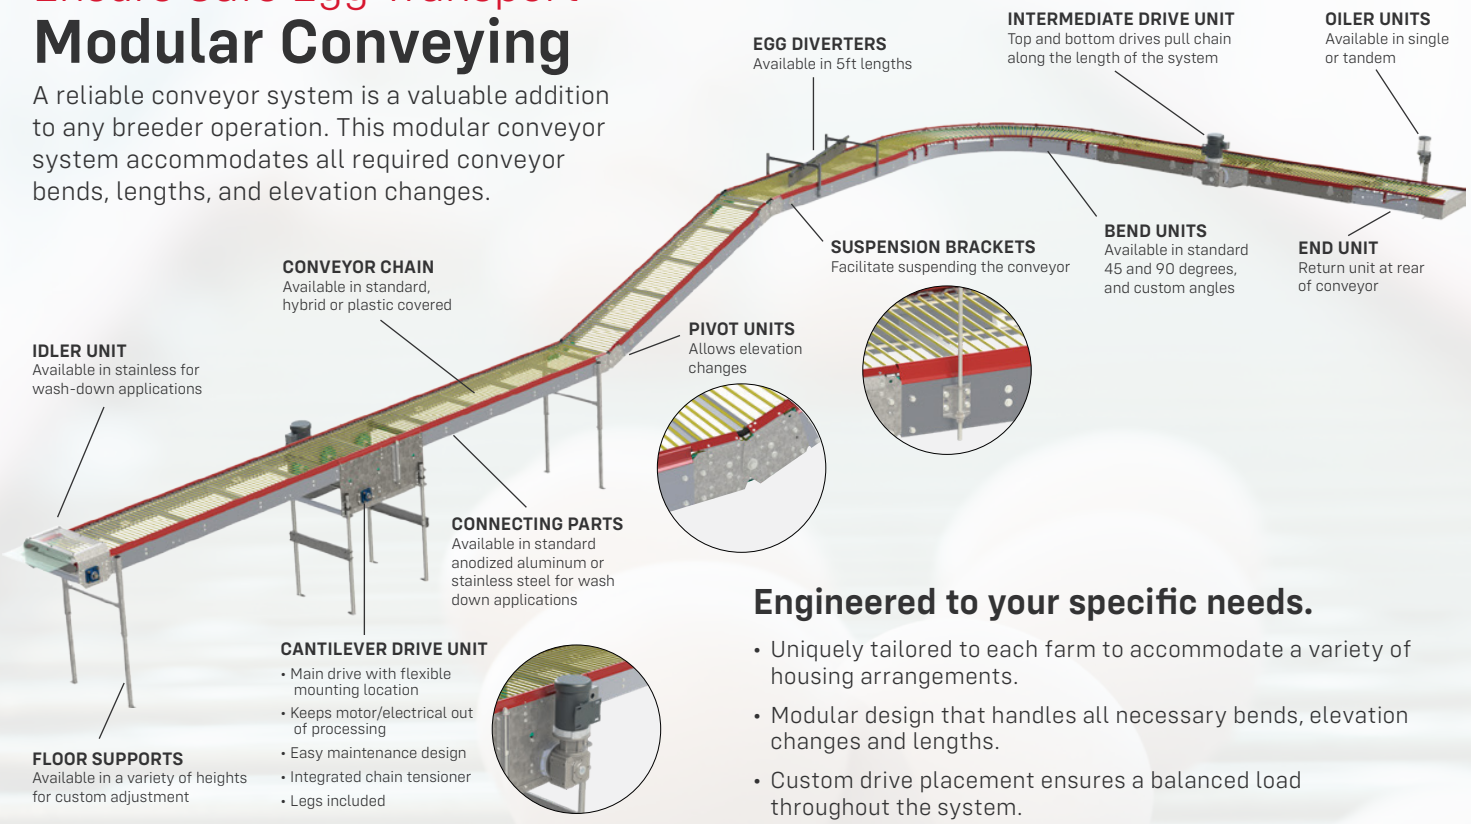

Belt Rollers
Heavy duty plastic and adjustable with a simple screw pin. Fiber brush clears debris off of the return belt.

Ensure Safe Egg Transport

Modular Conveying

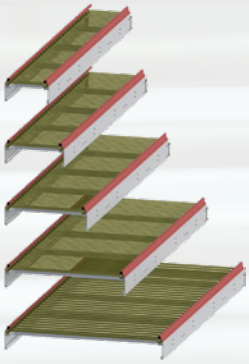

A reliable conveyor system is a valuable addition to any breeder operation. This modular conveyor system accommodates all required conveyor bends, lengths, and elevation changes.

Engineered to your specific needs.

- Uniquely tailored to each farm to accommodate a variety of housing arrangements.
- Modular design that handles all necessary bends, elevation changes and lengths.
- Custom drive placement ensures a balanced load throughout the system.
- All sections and components arrive at your farm pre-assembled.

SYSTEM CAPACITIES

At a speed of 25 feet per minute, with adequate space for safe loading:

TYPE	WIDTH	CAPACITY
T250	10 inches	90 cph (32,400 eph)
T350	14 inches	125 cph (45,000 eph)
T500	20 inches	190 cph (68,400 eph)
T750	30 inches	300 cph (108,000 eph)
T1000	40 inches	400 cph (144,000 eph)
